

IEEE JRFID Special Issue on IEEE SpliTech 2025

This special issue is intended to promote results presented at the **10th annual International Conference on Smart and Sustainable Technologies (SpliTech 2025)** held on June 16-20, 2025, in Split and Bol, Croatia, with more depth and details at the journal article level with archival value. The submitted papers will undergo peer review as for regular JRFID papers.

The manuscript **must be significantly extended** beyond the scope of the conference paper in terms of the overall technical contents and research results (a similarity percent less than 30% is mandatory).

The submission deadline is December 31, 2025. Nevertheless, submissions in advance with respect to the deadline are strongly encouraged since the accepted manuscripts will be published on IEEE Xplore and paginated within the Topic **“Selected Papers from the 2025 International Conference on Smart and Sustainable Technologies”** as soon as the final files are submitted by the authors.

Submission guidelines

The following requirements must be accounted for when submitting the manuscript:

1. The **manuscript must be technically extended** beyond the contents of the conference paper. The differences with respect to the conference paper must be properly discussed and highlighted through the text. Additionally, the authors must provide detailed information in the **Cover Letter** about how the manuscript is a technically extended version of the conference paper.
2. In the manuscript, the **conference paper must be listed** as one of the references and clearly cited in the text. A **pdf copy of the conference paper** must also be submitted, as it will be transmitted to AE and reviewers.

The manuscript, together with the accompanying documents (**cover letter, conference paper and IEEE copyright transfer form**) must be submitted electronically through the **IEEE JRFID AUTHOR PORTAL SUBMISSION SITE** (<https://ieee.atyponrex.com/journal/jrfid>), according to the format there available.

When uploading your manuscript, please select the following TYPE: **“Selected Papers from the 2025 International Conference on Smart and Sustainable Technologies”**. Subsequently, do not forget to **upload both the Cover Letter and the conference paper as “Supplemental Files for Review but not for Publication”**. Failure to follow above requests will result in the immediate return of the manuscript to the author(s) as a rejected submission. For any questions on the submission process, please contact the Editor-in-Chief of IEEE JRFID, Prof. Paolo Nepa (paolo.nepa@unipi.it) or the Guest Editors.

Guest Editors:

Prof. Luca Catarinucci

Department of Innovation Engineering, University of Salento, Lecce, Italy
(luca.catarinucci@unisalento.it)

Prof. Johanna Virkki

Research Centre of Gameful Realities, Tampere University, Tampere University, Tampere, Finland.
(johanna.virkki@tuni.fi)

Dr. Andrea Motroni

Department of Information Engineering, University of Pisa, Pisa, Italy
(andrea.motroni@unipi.it)

Submission deadline: DECEMBER 31, 2025

About the Journal: IEEE Journal of Radio Frequency Identification (JRFID) is the flagship journal (Hybrid Open Access) of the IEEE CRFID. JRFID has recently achieved remarkable success and outstanding metrics, solidifying its position as a leading publication in the field of communication, localization, wireless power transfer, and sensing.

Most recent JRFID metrics: **2024 Impact Factor: 3.4; 2024 Cite Score: 6.1.** JRFID has also excelled in publication timeliness (as from the IEEE PSPB report for Q1 2025): Average Weeks Submitted to First Decision: **5.2 weeks**; Average Weeks Submitted to Online Post: **12.5 weeks**.
