

IEEE Journal of  
**RADIO FREQUENCY IDENTIFICATION**  
Special Issue on **Wireless for Space and  
Extreme Environments** (WiSEE 2025)

This special issue is intended to promote results presented at the 13th annual IEEE International Conference on Wireless for Space and Extreme Environments ([WiSEE 2025](#)) by providing more depth and detail at the journal article level, with archival value. Selected high-quality accepted papers from this conference are invited to expand the content of their papers and presentations significantly before submitting to this special issue. The submitted papers will undergo peer review similar to regular JRFID papers, but will have a shorter time frame for publication.

**Preparation for Manuscript Submission:** The new manuscript, along with accompanying documents, such as a cover letter and an IEEE copyright form, must be submitted electronically through the [IEEE JRFID AUTHOR PORTAL SUBMISSION SITE](#) (<https://ieee.atyponrex.com/journal/jrfid>), according to the template there available.

Authors without an account on this system need to register and create a new account, and read submission instructions in detail to ensure an error-free manuscript preparation and submission. The following additional requirements should be met:

1. The manuscript must be significantly extended beyond the scope of the proceeding paper in terms of the overall technical contents and research results (a similarity percent less than 30% is mandatory).
2. The authors must provide a COVER LETTER with detailed information regarding how the manuscript is extended (adding the above description in the cover letter should be simpler than adding an additional file)
3. When uploading your manuscript, click on “Manuscript Submission”, then at step 1 select your paper type as “Selected Papers from the 2025 IEEE International Conference on Wireless for Space and Extreme Environments”. In step 2, upload your PDF copy of the proceedings paper as well as the COVER LETTER containing a detailed explanation of the extended paper as “supplemental file for review”.

**Submission Deadline: March 30, 2026**

**For any Further information,** Please contact the Guest Editors, Qiang (John) Ye at [qiang.ye@ucalgary.ca](mailto:qiang.ye@ucalgary.ca), or Gunes Karabulut Kurt at [gunes.kurt@polymtl.ca](mailto:gunes.kurt@polymtl.ca), or the Editor-in-Chief (EIC) of IEEE JRFID, Paolo Nepa at [paolo.nepa@unipi.it](mailto:paolo.nepa@unipi.it).
