

IEEE JRFID Special Issue on Selected Papers from the 2027 IEEE RFID Conference

The IEEE JRFID special issue on “**Selected Papers from the 2027 IEEE RFID Conference**” is connected to the **21st Annual IEEE International Conference on RFID (RFID 2027)**, that will be held on June 14-17, 2027, in Memphis, Tennessee, USA, targeting in-depth and journal-level articles with archival value.

CONFERENCE DUAL-TRACK SUBMISSION

Option A - Conference paper followed by an extended journal submission

Submit a regular conference paper (4–6 pages) through [EDAS](#). The conference covers all aspects of RFID research and applications; see the [Conference Call for Papers](#) for the list of topics. Accepted papers will be presented by registered authors and published in the conference proceedings on IEEE Xplore. **After the conference, authors may submit an extended version to this Special Issue.**

Submission of extended version of the conference paper

Open: June 18, 2027 - Deadline: October 30, 2027

The manuscript must add substantial new technical content and research results, and its title must differ from that of the conference paper.

The manuscript must clearly identify and discuss the substantial differences from the conference paper. The cover letter must explain how the work has been extended and summarize the new technical contributions. The conference paper must be included in the reference list and clearly cited in the manuscript.

Option B – Direct Journal Submission

Open: November 1, 2026 - Deadline: December 21, 2027

Submit a new, high-quality paper directly to this JRFID Special Issue. It will undergo the same peer-review process as a regular JRFID submission. If the paper is accepted, an author may register for the conference and present the work by submitting an abstract through [EDAS](#), following the instructions on the conference website.

HOW TO SUBMIT

IEEE JRFID AUTHOR PORTAL

ieee.atyponrex.com/journal/jrfid

Select the article TYPE: “**Selected Papers from the 2027 IEEE RFID Conference**”.

Upload both the Cover Letter and conference paper (only for Option A submission after the conference) as “Supplemental Files for Review but not for Publication. Complete the IEEE copyright transfer form.

Early submissions are strongly encouraged. Accepted manuscripts will be published on IEEE Xplore under the topic “**Selected Papers from the 2027 IEEE RFID Conference**” as soon as the authors submit the final files.
